Education

Anna University, Chennai

Doctor of Philosophy in Computer Science & Engineering (Part-time)
Research Area: Generative AI-driven Enterprise Knowledge Management using RAG.

Coimbatore, India
Jan 2026

Anna University, Chennai

Master of Engineering in Software Engineering (Full-time)
CGPA: 8.03/10, Anna University, Coimbatore, Rank 1

Coimbatore, India
May 2014 - June 2016

Anna University, Chennai

Bachelor of Engineering in Electronics and Communication Engineering (Full-time)
CGPA: 6.59/10

Coimbatore, India
May 2010 - Apr 2014

Work Experience

Capgemini

Consultant | Technical Writer | Global Knowledge Management

Client: Stanley Black & Decker, US (American manufacturer of industrial tools and household hardware)

Coimbatore, India
June 2022 to Present

- **Technical Documentation:** Develop, create, review, and maintain technical and business documentation including SOPs, user guides, training guides, process manuals, knowledge articles, technical reference documents, release notes, troubleshooting guides, and operational documentation.
- **Documentation Planning & Delivery:** Develop and maintain documentation plans aligned with project objectives, business requirements, stakeholder expectations, documentation standards, priorities, and delivery timelines while managing multiple documentation activities concurrently.
- **Technical Communication & Stakeholder Collaboration:** Collaborate with SMEs, technical teams, process owners, business stakeholders, and project teams to gather requirements, validate complex technical, system, application, and business-process information, conduct documentation reviews, obtain approvals, and translate it into clear, accurate, structured, and user-friendly documentation for internal users and targeted customer groups.
- **Document Lifecycle Management:** Manage documentation throughout its complete lifecycle, including creation, technical review, approval, publication, revision, version control, periodic review, archival, and retirement of superseded content.
- **Document Management Systems:** Maintain structured technical and business documentation within Teamcenter, Windchill, and SharePoint, supporting document accessibility, metadata management, version control, revision history, approval workflows, and document governance.
- **Document Control & Configuration Management:** Apply document control and configuration management practices to maintain correct, current, approved, and traceable versions of documentation, including naming conventions, ownership, review dates, and archival information.
- **Documentation Standards & Governance:** Establish and maintain documentation templates, writing standards, content structures, metadata standards, naming conventions, and governance practices to improve consistency, quality, usability, and maintainability. **Training & User Documentation:** Develop training guides, user guides, quick reference materials, process instructions, and knowledge-transfer documentation supporting system implementations, process changes, onboarding, and operational adoption.
- **Release & Change Documentation:** Prepare release notes, change documentation, system update communications, and enhancement documentation covering new functionality, system changes, process improvements, and operational impacts. **Content Governance & Improvement:** Monitor content health, review cycles, renewal dates, ownership, version history, obsolete content, and documentation gaps, using stakeholder feedback, usage data, and process reviews to drive continuous improvement.
- **Content Migration & Standardization:** Support documentation migration, restructuring, standardization, and content governance across Teamcenter, Windchill, SharePoint, and other structured documentation environments while improving information accessibility across global operations.
- **ServiceNow Certification:** [ServiceNow Certified System Administrator \(CSA\)](#) with knowledge of ITSM best practices, workflow automation, platform administration, and enterprise service management.

- **Technical & Product Documentation:** Create, review, and maintain technical and product documentation for Artificial Intelligence, Natural Language Understanding, software, and enterprise technology solutions.
- **Product Specifications & Manuals:** Author Product Specifications, Technical Manuals, User Guides, Training Guides, SOPs, Functional Specifications, Implementation Guides, Configuration Guides, and Release Notes covering product capabilities, features, workflows, configurations, and technical requirements.
- **API & Integration Documentation:** Create API documentation, integration guides, technical reference materials, and system interface documentation covering workflows, configurations, integration requirements, and technical dependencies.
- **Technical Communication:** Collaborate with software engineers, solution architects, technical SMEs, product teams, and business stakeholders to understand complex technical concepts and convert them into clear, structured, user-focused documentation. **SOP & Process Documentation:** Develop and maintain SOPs, process documentation, operational procedures, and workflow documentation to establish consistent and repeatable technical and business processes.
- **Training & Knowledge Transfer:** Develop training guides, tutorials, onboarding materials, user documentation, and knowledge-transfer content for technical and non-technical audiences.
- **Release & Change Documentation:** Prepare release notes and product change documentation covering new features, enhancements, fixes, system changes, product updates, and their operational impact.
- **ServiceNow Knowledge Management:** Create and maintain structured documentation within ServiceNow Knowledge Management, including knowledge articles, categories, content structures, ownership, review cycles & updates.
- **Document Lifecycle & Control:** Manage documentation through the complete lifecycle from authoring, technical review, stakeholder validation, approval, publication, revision, version control, and archival, maintaining metadata, revision history, ownership, and approval status. **Documentation Standards:** Establish documentation templates, writing standards, content structures, review processes, and quality guidelines to improve consistency, accuracy, usability, and maintainability.
- **Technical Quality Assurance:** Perform technical reviews, content quality checks, validation, and documentation audits to ensure documentation is complete, technically accurate, consistent, and aligned with product and business requirements.
- **Project & Stakeholder Management:** Coordinate documentation deliverables across multiple concurrent projects, managing priorities, timelines, stakeholder dependencies, requirements, and quality expectations.

National Institute of Technology, Karnataka

Mangalore, India

Assistant Lecturer (aka) Temporary Faculty | Information Technology

July 2018 to July 2020

- **Implemented Flipped Classroom Methodology:** Successfully introduced and integrated a flipped classroom environment in the Human-Computer Interaction course, enhancing student engagement and learning outcomes.
- **Web Development and SEO Analysis:** Developed and optimized the college website, focusing on front-end development and SEO analysis to improve user experience and search engine rankings.
- **Specialized in Web and E-learning Technologies:** Extensively worked with web technologies, web semantics, and human-computer interaction tools. Applied these skills in developing e-learning applications, including game-based learning, mobile learning (M-learning), and flipped classroom environments.
- **Courses Taught:** Expertly taught various courses including Web Technologies and Applications, Semantic Web Technologies, Human-Computer Interaction, and Computer Organization and Architecture.
- **Polling Officer:** Acted as a polling officer during student elections, ensuring a fair and transparent voting process. **NIRF Data Collection:** Contributed to the National Institutional Ranking Framework (NIRF) data collection, focusing on enhancing the institute's outreach and inclusive metrics.

Coimbatore Institute of Engineering and Technology

Coimbatore, India

Assistant Professor | Computer Science

Aug 2016 to July 2018

- Academic and Administrative staff
- EMS University Coordinator

Publications

1. Nandini, Ankit, Nilita **Vishnuvardhan V**, V Ashwin, Ram Reddy, "[Smart cane for assisting Visually impaired people](#)", IEEE, 2019
2. **Vishnuvardhan V**, "[Devise & Enlargement of Component assortment process & new optimum assortment mechanism in CB software Engineering](#)", International Journal of engineering research and Science and Technology, May 2016

Skill Set

ITSM:	Knowledge Management, Incident Management, Problem Management, Change Management, Request Management, CMDB and Service Operations,
ITSM Tools/:	Zendesk, Salesforce, Jira, ServiceNow, AEM and iManage.
DMS:	Sharepoint Online, Teamcenter, Windchill
Web Technologies:	HTML5, CSS3, Web RTC, SEO
Web Semantics:	Protégé, OWL, RDF
DV/Graphics/Illustration:	Adobe Photoshop, Adobe Illustrator, Wireframing, Canva, and Google charts
Medical Coding:	Human Anatomy, Physiology, ICD, CPT coding.
Microsoft:	Microsoft Suite, Office 365 Apps, Power BI, Microsoft SharePoint Online, PowerAutomate
Generative AI:	ChatGPT, Claude, Copilot, Prompt Engineering.

Academic Achievements and Awards

- Secured Distinction in History subject in SSLC grade X.
- Master's: University Rank Holder - Software Engineering, Batch of 2016.
- Awarded Best Outgoing Student in 2008 and 2010
